Relationship between the field of study and the development strategy and mission of the university

The Program realizes the mission of AGH University of Science and Technology and is a sign of gradually increasing role of the humanities in analyzing the spheres of developing applied sciences and their achievements. The aim of it is deep understanding of the socio-cultural conditions and consequences of the development of science and technology.

Information on taking into account the socio-economic demand while creating the curriculum and indication of the assumed learning outcomes matching the identified demand

T&S Program led a faculty of humanities at AGH University of Science and Technology - one of the leading technological universities in Poland - encourages Students to develop exceptional scholarship on important issues regarding the place of technology in social and cultural reality.

Contemporary societies have witnessed a number of discussions on the intersection on interrelated spheres of technology and society. Such discourses are often contradictory; from one side, their focus on the positive influence of science and technology on contemporary societies and cultures, from the other, technology and science creates lot of moral panics and anxieties.

Detailed rules of the implementation of the curriculum established by the Dean of the Faculty (the so-called Study Rules)

Field of study: Sociology

Specialty: The Technology & Society

Enrollment rules for the next semester

The student is entered for the next semester if he has completed all the subjects required by the program.

Enrollment rules for the next semester as a part of the so-called ECTS credits debt ceiling

The student is entered into the next semester with a point deficit, which can not exceed 12 ECTS in total. The application in this case should be submitted to the Dean of the Faculty.

Study rules in case of the individual organization of studies approved for a specific student

The conditions for an individual program of studies are regulated:

Resolution of the Council of the Humanities Department No. 12 of September 17, 2018 regarding the rules of studying according to the individual program of study (IPS) in the academic year 2018/19

According to the Regulations of the AGH University of Science and Technology (paragraph 9) of October 1, 2015 (as worded from October 1, 2017)

Implementation of practical placements including monitoring system and completion rules

Rules of elective modules taking

The student chooses the items from the list published two weeks before the classes.

Rules of education paths, graduation paths, major choice/eligibility

The student chooses the specialty on the basis of a declaration to be made while taking up studies.
in the case of too few students (less than 15 people) the specialty may not be launched.

Rules related to the preparation of diploma projects and theses as well as the implementation of the degree granting

The master's exam consists of the presentation of the master's thesis and the oral exam. The thematic scope of the exam includes

issues in the field of introduction to sociology, history of sociology, methods and techniques of sociological research and contemporary sociological theories.

A minimum of three questions will be asked during the exam.

Principles for determining the overall evaluation of graduation (the final grade)

The final rate consist of:

- 1) the average ratings from all the studies - 60% of the final rate,
- 2) the thesis supervisor and reviewer rates - 20% of the final rate,
- 3) and the average of the ratings achieved during the oral exam - 20%.
